

Tips on presenting a 5-minute ePoster Presentation

tip

1

Start with a Strong Introduction

Begin with a brief introduction that includes the title of your ePoster and a quick overview of what you will cover.

Focus on Key Points

Identify the most important points or findings in your ePoster.

Avoid covering everything; prioritize data or insights that are most impactful or interesting.

tip 3

Use an Engaging Visual Aid

Utilize your ePoster as a visual aid.

Point out specific charts, graphs, or images as you discuss them.

Practice Concise Explanation

Practice explaining your points succinctly.

Aim to convey each key point in less than a minute.

tip 5

Tell a Story

Frame your presentation as a narrative.

This makes it more engaging and easier for the audience to follow.

Anticipate Questions

Prepare for potential questions.

Think about what aspects of your research might intrigue or confuse the audience.

tip 7

Rehearse Timings

Practice your presentation multiple times to ensure you can comfortably fit it within 5 minutes.

Use a timer during rehearsals.

Speak Clearly and Confidently

Speak at a steady pace, clearly and with confidence.

Avoid rushing through your presentation.

tip

9

Prepare for Technical Issues

Be prepared for any technical hiccups, especially if presenting virtually.

End with a Conclusion or Takeaway

Conclude with a brief summary or a key takeaway from your research.

Leave the audience with something memorable.
