NEW YEAR MESSAGE FROM THE PRO-VICE CHANCELLOR FOR ENGAGEMENT & INDUSTRIAL PARTNERSHIP

PROFESSOR TOH CHOOI GAIT

PRO VICE CHANCELLOR ENGAGEMENT & INDUSTRIAL PARTNERSHIP

The year 2020 hails the start of a new decade filled with new hope, aspirations and resolutions. My wish is for us to do all we can to encourage our university staff and students to engage with communities through social innovation and social justice advocacy for a better society. We can't do it all, but neither can we neglect our opportunity to strengthen the next generation. I am pleased that the IMU Community Engagement team led by Professor Khoo Suan Phaik has launched the ACE (Advocates of Community Engagement) programme to hone our students to be agents of change, be leaders of social justice and social entrepreneurs. We hope through this programme our students will develop the skills and the willingness to improve their communities instead of hoping that some authority will fix things, or be cynical that institutions can never work.

There is much work ahead of us to strengthen trust and support our communities to acquire the necessary knowledge and skills for a sustainable future through our various IMU community engagement projects. We look forward to the active contribution and participation of all members of IMU family in these projects. Let us live our IMU Values every day and wishing all a very happy and fulfilling year!

“ EDITORIAL NOTE

PROF KHOO SUAN PHAIK

ASSOCIATE DEAN
UNIVERSITY COMMUNITY
ENGAGEMENT

IMU Community Engagement is committed to making real and positive differences to the campus community as well as to the community at large. In this new year 2020, we look forward to the beginning of a new decade to transform IMU's aspirations of being a diverse and inclusive community into realities that are meaningful for our students, staff and the communities that we live in.
