# About The International Medical University

In 1992, Malaysia was facing a serious shortage of doctors. Dr Kamal Salih, a visionary, and Dr Mei Ling Young, a social scientist with a strong interest in development, hit on a brilliant, simple idea – if young Malaysian students could not go out into the world to get the medical education they wanted and deserved, they would bring it to them. And so, the idea for the International Medical College (IMC) was born. The college was officially launched on 13 April 1992 by the then Education Minister, YB Datuk Amar Dr Sulaiman Haji Daud, demonstrating the full support of the Malaysian Ministry of Education and Ministry of Health.

Changing the landscape of medical education, IMC introduced the world's first unique curriculum model that allow medical students to spend the first five semesters at the IMC in Kuala Lumpur, before moving to one of the five leading Partner Medical Schools (PMS) around the world.

### **Gaining University Status**

On 4 February 1999, IMC was granted university status and became the International Medical University (IMU), thus providing students the additional option of reading the whole medical degree in Malaysia, graduating with the IMU MBBS. With this, IMC also became the country's first private medical college to be upgraded to a university. Since then, IMU has grown from a medical college with five PMS offering one programme, to an internationally recognised higher education institution offering 41 programmes with over 36 world class partner universities in Australia, New Zealand, Canada, Ireland, the United Kingdom, the United States of America and China. It is also the first university in Malaysia that offers conventional and complementary medicine, together, with the philosophy that health is holistic.

### **Healthcare and Research**

In January 2010, IMU took a bold step in its plan to be a holistic healthcare provider with the launch of its Oral Health Centre in January which was quickly followed by the Chiropractic Centre in May, Medical Clinic in July and the Chinese Medicine Centre in November. These clinics formed the IMU Healthcare Centre which apart from providing professional and specialist services to the public, these centres also serve as a teaching site for IMU students and plays an important role in educating future healthcare professionals who

understand the importance and benefits of offering holistic healthcare services. It also extends the learning experience beyond the partnerships already offered by the Ministry of Health hospitals and clinics.

While medical and healthcare-related research continues to be an area of focus, the University also places emphasis on medical education research. To support research, the University established the Institute of Research, Development and Innovation (IRDI) in 2012.

Poised to be a significant player in biomedical and clinical research, IRDI's eight thrust areas are in environmental and population health, bioactive molecules and drug discovery, cancer and stem cell research, health professions education, translational research, transformative nutrition and health, analytical and pharmaceutical services, as well as digital health.

This is also part of the IMU's vision to be a leading private Asian health educator that creates value through integrating education, research and healthcare.

### **Serving the Community**

One of IMU's core values is that to be good healthcare professionals, students must be moulded to be good human beings. And this includes being aware of, and sensitive to the needs of the communities in which they live and work, hence IMU's tradition of active community engagement.

Since its launch in 2002, IMU Cares programme has played an important part of University life, providing means for students and staff to engage with the community beyond the University. From a small-scale fund-raising activity in 2002, IMU Cares has expanded to provide more than just financial assistance to the less privileged. The Programme now strives to deliver

healthcare, to promote health and wellness, and to prevent disease.

In addition, IMU Cares has begun providing more holistic care, including medication counselling and nutritional assessment. Cases requiring further treatment are referred to the IMU Healthcare clinics, and the IMU Cares Humanitarian Aid Fund underwrites treatment costs.

IMU Cares has also looked into the education and training of caregivers, to enable and empower them to provide better care. From integration and application of knowledge and skills to interprofessional learning and collaborative practice, the programme has become a platform for experiential learning. It enables students to learn leadership, inter-professional teamwork, and to practise the values of professionalism and ethics while making a difference to communities. One of IMU's commendable efforts was seen through its long-running Village Partnership programme which won first place; out of 63 international universities in the prestigious MacJannet Prize for Global Citizenship Award in 2013 and again in 2019. In 2013, the University also won the Association for Medical Education in Europe (AMEE) ASPIRE for Excellence Award in the area of "Student Engagement" at the AMEE conference in Prague, Czech Republic.

IMU Cares continues to win accolades and awards for its unique programmes that continues to serve the community including the Bronze Award for the CSR Leadership Award at the 10<sup>th</sup> Annual Global CSR Summit & Awards 2018.

## Moving Forward

Committed in its relenting quest for quality, the University was awarded the self-accreditation status – by the Malaysian Qualifications Agency (MQA). This status of autonomy entitles a higher education provider to accredit its programmes except for programmes that require accreditation and recognition of the relevant professional body. The award also demonstrates the fact that IMU consistently maintains high standards of quality and integrity in all its programmes.

The University also gained a six-star rating under SETARA 2017 and SETARA 2019 for two consecutive years for the Mature University Category. This is the highest ranking awarded by the Ministry of Higher Education (MOHE) which measures the performance of three core functions namely teaching, research and services. We were also rated a 5-star university by Quacquarelli Symonds (QS) World University Rankings in 2020.

As the University progresses into a rapidly changing world, where knowledge and technology is moving at an unimaginable pace, the IMU retains its vision of becoming an innovative global centre of excellence in learning and research, supporting a community of scholars and professionals committed to serving society, promoting the development of students to reach their true potential in becoming competent, ethical, caring and inquiring citizens and visionary leaders.

Celebrating our 30<sup>th</sup> Anniversary in 2022 with the theme of Nurturing Leaders Today, we remain focused on the central philosophy that guided our founders; Access to quality health science education, innovation and imagination as a cornerstone, as well as continuous insights and reflection to visualise and realise IMU's future. Our strategic plan aims to cement our leadership in medical and health care education through quality and to ensure that our delivery and offerings are aligned to society's needs and the digital age.

## The University Mace

The mace is the symbol of authority of the International Medical University (IMU).

The globe at the top symbolises the international nature of the University. Gold denotes the quality of education provided by the IMU.

The seven krises (traditional Malay weapon) represent the nations participating in the international medical consortium.

The songket motif symbolises the country's cultural tradition.

The Bunga Raya (Hibiscus) is Malaysia's national flower.

The five facets of the mace stand for the five continents of the world.

The second ring consists of the logo of the IMU to signify its new charter as a University. Below the second ring of the mace are the logos of the original five Partner Medical Schools which helped start this innovative medical programme.

The original International Medical College emblems are etched on each side of the brace in the third ring of the mace. Below the third ring are the logos of the international Partner Universities involved through their medical schools in the international medical consortium.

The bottom part of the mace is carved in the shape of the Kelantanese gasing (spinning top), another symbol of Malaysian culture.

## The Logo

The initials IMU represent the name of the University. The strips on the "I" represent the three pillars of Innovation, Imagination and Insight. The snake and staff are the traditional symbols for medicine, which is the educational focus of the University. The colour white represents integrity.

The globe stands for international connections: the IMU as a member of the international medical consortium, both in terms of partnerships with many well-known foreign universities, as well as its international faculty and student body.

The tilted square represents the mortar board, which is the symbol of academia in relation to the community. The colour blue, in its two shades, stands for peace and harmony.

## Vision

IMU shall be an innovative global centre of excellence in learning and research, supporting a community of scholars and professionals committed to serving society, promoting the development of students to reach their true potential in becoming competent, ethical, caring and inquiring citizens; and visionary leaders.

IMU is committed to academic freedom and the principles of equal opportunity in the pursuit and application of knowledge, the highest standards of intellectual, educational and research productivity; and the establishment of a learning organisation that respects the individual.

## Educational Mission

As an educational institution, our mission is:

- To further strengthen the IMU as a centre of excellence for the undergraduate programmes in medicine, dental, pharmacy, health sciences and complementary and alternative medicine programmes
- To establish the IMU as a centre for higher education providing training through multidisciplinary programmes
- To establish the IMU as a centre for postgraduate training and Continuing Professional Education
- To train knowledgeable and skillful professionals with high ethical standards who will be dedicated to serve and improve the quality of life of the community
- To train competent professionals with the use of innovative technologies of knowledge especially ICT in the teaching-learning process

## Quality Policy

IMU aims to be an innovative centre of excellence in learning and research, producing competent, caring and ethical professionals who are lifelong learners. It is committed to achieving the highest standards of intellectual, educational and research productivity.

SSIS, DPMK, DSIS, PSK, KMN

# Message from the Vice-Chancellor

Welcome to the IMU's Convocation 2022. As we approach the end of our 30<sup>th</sup> Anniversary year, the theme "Nurturing Leaders Today" continues to underpin the philosophy of IMU and the fruit of this is evident in the graduands that sit before us.

## **Prof Dr Abdul Aziz Baba**

Vice-Chancellor

MBBS (Melb), MRCP (UK),  
MRCP (Ireland),  
FRCP (Edin), AM

We are here to celebrate you, our graduands, as you start your own journey – pathways that I promise will be full of adventure – with each and every one of you playing your roles to the best of your abilities in your chosen fields. We also acknowledge the support system that has enabled our students to reach this far: parents, family, friends, faculty members, and staff members of the IMU.

This year has shown us that we can survive, that we are resilient and most importantly, that we can grow and develop from strife. We have evolved from the frenzy of the pandemic into an almost endemic state, and as we reclaim normalcy, we must not let it be an excuse to return to old habits. Rather, this is the opportune time for us to build a new normal that encompasses all the learnings of the past years, a way forward that fully embraces empathy, generosity and a sense of community – the things that have allowed us to move beyond the tragedies and constraints of the past two years.

Community has always been at the heart of the IMU and should always be what drives us as healthcare professionals. It was with great pride that we held our inaugural IMU Alumni conference in October. The alumni in itself is a community that we have worked hard to build and in turn they have been making good, positive differences in the communities they serve. Listening to their stories of achievements, serves as an inspiration to always remain true to our calling – to create innovative and useful solutions to real life problems.

As an institute of higher learning, the IMU has always been proud to produce outstanding alumni. We have continued to improve initiatives to ensure we provide the best quality education especially in delivering the best student learning experience. Technology has played a big role here, with digital tools such as virtual reality and augmented reality allowing us to make learning more immersive and engaging.

At the IMU, we take pride in being able to adapt to society's evolving needs and this has led us to update our existing programmes where necessary. Among others, these updates included the implementation of our MBBS and Dental curriculum.

In answering the society's growing thirst for all things digital, we launched the first Digital Health degree in Malaysia that integrates Information & Communication Technology, Data Analytics and Healthcare and we welcomed our pioneer cohort in September 2022. This initiative opens new opportunities for the next generation of students, especially those outside of science-based backgrounds.

Even as you close the chapter on this academic journey, know that your learning must never stop. The healthcare environment that you will enter will continue to change rapidly with new ways of working, new models of healthcare delivery, technology, and the growth of data. It is important that you are able to develop the ability to learn new skills.

The education that you have received here is a foundation. Your responsibility now is to build on it and pursue greater knowledge at each and every step of your way. Do not be afraid to come out of your comfort zones because this is where experience lies, and experience will be one of your greatest teachers.

When you are in doubt, let the IMU's principles of TRUST guide you. Be Trustworthy and stand for integrity, be Responsive to the community's needs, Unite towards a common goal, be committed to Service and stay Tenacious in the pursuit of excellence. Carry with you the confidence that you are healthcare professionals who are well-trained and future-ready; that you are healthcare professionals who are armed with the required clinical skills.

As you start your journey, remember, you are human too. You will come across times when you will feel at your lowest and feel like giving up. Pay attention and be cognizant of your mental health. Learn to recognise the signs that you are overwhelmed.

You do not stand alone. Your family and circle of friends – they are your support system. The community that you build with each other will be as important as the communities you serve.

You carry with you the hopes and dreams that you have nurtured throughout your academic years, and even your lives. As you step out of IMU, you can turn these dreams into reality.

It is not the accolades, the awards or the financial gains that will matter. It is how we affect those around us. Be inspired and motivated by the stories of our alumni. I challenge you to emulate and do greater things that will make a positive difference to the world.

Wherever you are, remember to bring change to systems that do not work and innovations to things that can be made better.

Do well, and at the same time, do good. Continue to make us proud.

Thank you.

A handwritten signature in black ink, appearing to read 'Aziz', with a long horizontal line extending to the right from the end of the signature.

# Convocation Proceedings

**5 NOVEMBER 2022**

**MEI LING YOUNG AUDITORIUM, IMU BUKIT JALIL CAMPUS**

## Session One

School of Postgraduate Studies and School of Medicine

**7.00am**

- Arrival and Registration of Graduands and Guests

**7.30am**

- Arrival of Senate members
- Arrival of the Vice-Chancellor and members of the Board of Governors
- Arrival of Chancellor and Pro-Chancellor
- Official Photography of Graduands
- Guests to be seated

**8.30am**

- Procession of Graduands
- Academic Procession and Grand Procession
- Recital of Doa
- Announcement of the Purpose of the Congregation
- Official Opening of the Convocation Ceremony
- Address by the Vice-Chancellor
- Address by the Chancellor
- Conferment of the PhD in Medical and Health Sciences
- Conferment of the Master of Science in Medical and Health Sciences
- Conferment of the Master of Science in Public Health
- Conferment of the Master of Science in Molecular Medicine
- Conferment of the Master of Science in Analytical and Pharmaceutical Chemistry
- Conferment of the Master in Pharmacy Practice
- Conferment of the Master of Business Administration in Healthcare Management
- Conferment of the Master of Science in Acupuncture
- Conferment of the Master in Health Informatics and Analytics
- Conferment of the Postgraduate Diploma in Implant Dentistry
- Conferment of the Postgraduate Certificate of Business Administration in Healthcare Management

**UNIVERSITY AWARDS  
AND PRIZE WINNERS  
NOVEMBER 2022**

# Congratulatory Messages

**A/Prof Dr Tan Eng Lai**  
Dean, School of Postgraduate Studies

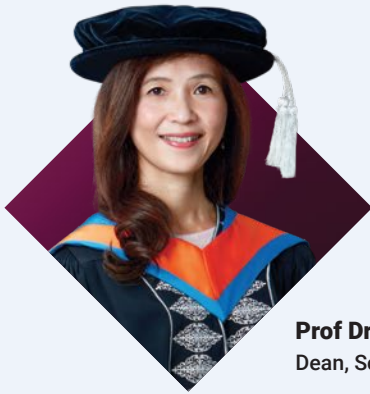

**Prof Dr Ian Symonds**  
Dean, School of Medicine

“ I wish to congratulate all prize recipients on their outstanding achievements. This award is indeed both a testimony and recognition of your talents and hard work, and as such, it is well-deserved. Congratulations and well done to all prize winners. Thank you for making us proud of your achievements. Thank you for giving us the opportunity to share in this joyous and memorable moment. I wish all of you the very best for your future career.”

“ I would like to send my congratulations to all award and prize winners. You should be truly proud on these outstanding achievements and the recognition of all your hard work. Successfully completing your studies is itself challenging but you have gone above and beyond what is needed to do this and demonstrated dedication and excellence. As you enter the next phase of your training, the qualities that have enabled you to achieve this success will stand you in good stead for the rest of your career.

I know that you will acknowledge that this could not have been achieved without the support of your families, friends and teachers who, I am sure, share my pride at your accomplishment.

Congratulations again on your impressive performance.”

**Prof Dr Seow Liang Lin**  
Dean, School of Dentistry

**Prof Mohd Zulkefeli Mat Jusoh**  
Dean, School of Pharmacy

“ It gives me immense pleasure to congratulate all award and prize winners at this year’s Prize Presentation Ceremony. It has been an honour to see you grow personally and professionally while pursuing your study at the International Medical University. You have completed the undergraduate journey in the midst of a global pandemic. No doubt your learning was disrupted. No doubt there was added stress and uncertainties. Despite these challenges, you have emerged stronger. I would like to take this opportunity to thank the faculty, family and friends who have rendered their support throughout your journey. Your accomplishments are impressive as you carried them out during a worldwide pandemic. Believe in yourselves as we believe in you, you will make competent, empathetic, and trustworthy healthcare professionals.

While we celebrate the achievements, it is important for us to take a step back and remind ourselves about exactly who we are and what we are trying to do, not just as individuals, but as a community. It is about building an inclusive and caring society for the wellbeing of our patients. In every society, you will have people with different challenges in life and what you will be doing, is to reach out with a helping hand, to help improve the quality of life of people.

I wish you every success for your next endeavour and please keep in touch with us.”

“ My heartiest congratulations to all recipients of awards and prizes of this Prize Presentation. After all your hard work, this Presentation is a moment to recognise your outstanding achievement. You have proven to the world that despite the challenges during a global pandemic, you have made it and completed the degree with excellent achievement. I believe that this experience has made you stronger to face other challenges in your life as you have persevered and overcame the unexpected.

May this award encourage you to go further and higher, to another level in the next stage of your career journey. All the best! A note to keep in mind: Remember the past, live in the present and look forward to the future. I hope you will all keep in touch, come back to visit the campus and share your news and hard-won wisdom with the students here.”

**Prof Winnie Chee Siew Swee**  
Dean, School of Health Sciences

**A/Prof Dr Ranjit De Alwis**  
Director, Centre for Complementary  
and Alternative Medicine

“Congratulations to all the graduates who have received the well-deserved awards and prizes in conjunction with the Convocation Ceremony. You have surpassed your goal by graduating tops in your chosen profession and we are proud of your achievements. It is up to you now to continue the journey and make a difference in to go the extra mile to serve society!

Here is a poem from Robert Frost,  
The Road Not Taken:

*“I shall be telling with a sigh  
Somewhere ages and ages hence  
Two roads diverged in a wood and -  
I took the one less travelled by,  
And that has made all the difference!”*

“My heartiest congratulations to all well-deserved award and prize winners. You are a special lot; you bravely faced and beat all the challenges that came your way during the global pandemic to complete your studies. You have proved that you are strong and will be able to face any challenges that come your way in the future. Nothing can stop you, keep reaching for the stars. Graduation may be the end of your studies in the University, but it is also the start of a new chapter of your life. I wish that success keeps following you in everything that you do, always.”

# Dr John Joseph Bosco Memorial Gold Medal

---

The Dr John Joseph Bosco Memorial Gold Medal is awarded to a graduating IMU MBBS student who has achieved the highest academic excellence throughout his/her degree. One medal may be awarded in each graduating cohort. This award is given in memory of the late Dr John Joseph Bosco who played an instrumental role in the development of the IMU Clinical Campus.

---

## Tan Zhi Hao

Bachelor of Medicine and Bachelor of Surgery (MBBS)

Cohort: ME2/17

Tan Zhi Hao graduated with a Bachelor of Medicine and Bachelor of Surgery (MBBS). He is a diligent, responsible, and hardworking individual. He attributes this success to the passionate lecturers who serve as a role model and inspires him to improve; his colleagues who motivate and encourage him through every challenge; and his family who has always been supportive of him. He believes that one's character is their most important asset. He was involved in extracurricular activities and volunteered at the vaccination centers. He is a talented, intelligent student with charisma, confidence and respect for others and he wants to make a huge difference in the world around him. Zhi Hao is trustworthy, reliable, good humored student and friend who supports others in and out of the classroom. He has a positive attitude and believes in himself even the face of difficulty.

# Dr Saidi Hashim Memorial Gold Medal

---

The Dr Saidi Hashim Memorial Gold Medal may be presented twice a year to the top student of the convocating cohort who will be continuing their studies either to the IMU Clinical Campus or Partner Schools overseas. The gold medal award is given in honour of the late Dr Saidi Hashim Tahir, one of the founders of IMU.

---

## Lim Dao Han

Certificate of Completion for Phase 1 of the Medical Programme

Cohort: ME1/20

Lim Dao Han is currently continuing his MBBS at the IMU clinical campus Seremban. He is a motivated learner and, despite the challenges and struggles brought upon by the pandemic, Dao Han has shown perseverance and determination as well as excelled in his studies during Phase 1 at IMU Bukit Jalil. He is insightful, mature and welcomes feedback to improve and progress. He is well liked amongst his peers and faculty alike. Dao Han will do IMU proud by incorporating IMU's values into his future practice and doing the best for his patients.

# Malaysian Medical Association Wilayah Persekutuan Award for Professionalism and Leadership

---

Malaysian Medical Association Wilayah Persekutuan (MMAWP) Award for Professionalism and Leadership is awarded to high academic achieving students who have shown outstanding professional conduct, leadership and community service. This award is given to a student in the cohort completing Semester 10 of the MBBS programme.

---

## **Hue Pei Wern**

**Bachelor of Medicine and Bachelor of Surgery (MBBS)**

Cohort: ME2/17

Hue Pei Wern is a graduate of the Bachelor of Medicine and Surgery (MBBS) programme with distinction. She has demonstrated commendable dedication and brilliance, not only towards her academics but also in her personal and professional development. To her peers, she is known to be a passionate and motivated learner who always seeks to challenge herself. With an inquisitive and explorative mind, she has actively participated in numerous workshops and competitions. Her group won the first place in the Intersarsity Battle of Skills 2022. Pei Wern was also the champion at the Medic Intersarsity Academic Olympiad 2021. She was the University's ambassador for the Malaysian Medics International and the organising chairperson for the Medical Insider Workshop. A caring person by nature, Pei Wern's active engagement in multiple organisations such as Make-A-Wish Malaysia, refugee clinic and outreach projects was a means to give back to society, is truly applaudable and resonates well with IMU's core values.

# Dr Tan See Leng Award of Leadership

---

This award is given to a graduating IMU MBBS student who showed outstanding engagement and performance academically and in the professional and personal development through active participation, engagement, advisory and leadership. The award is named after Dr Tan See Leng, a renowned Family Physician and leader in the healthcare industry.

---

## FIRST PLACE

### Wong Pei Ying Rebecca

Bachelor of Medicine and Bachelor of Surgery (MBBS)

Cohort: ME2/17

Wong Pei Ying Rebecca, who is graduating with the Bachelor of Medicine and Bachelor of Surgery (MBBS) degree, has been awarded first place in the Dr Tan See Leng Award of Leadership. She believes that medicine should not be confined to the conventional disciplines and that one should not restrict their boundaries of adventure to the horizon they see, but beyond it.

Rebecca is an all-rounder who has successfully collaborated in, co-authored, and published multiple research papers regarding COVID-19 and its sequelae, and has also led teams of skilled hikers onto highly technical mountains. She has also actively participated in and contributed to the development of Space Medicine, as well as Wilderness and Austere Medicine.

She has been highly commended upon for her virtues of humbleness, patience, and endurance, which have brought her to venture further into this arduous profession and which will be her greatest assets in blazing a trail in the future of medicine in Malaysia.

## RUNNER UP

### Yee Yi Ling

Bachelor of Medicine and Bachelor of Surgery (MBBS)

Cohort: ME2/17

Yee Yi Ling is a graduate of the degree of Bachelor of Medicine and Bachelor of Surgery (MBBS). She is a natural leader with a wide range of skills and has been actively involved in a wide variety of extra-curricular activities, including assuming the roles of President of Chariofare 2018 (IMU's community event), coordinator of Consultoid (a peer learning platform), and committee member of Rainbow Bridge Malaysia (a non-profit organisation).

She is regarded by her colleagues as loving yet strong and capable, and by lecturers and staff members as an accountable and amicable individual. Yi Ling believes that leadership is not about one's achievements but is defined rather by how we inspire and encourage others to achieve their potential. The message she strives to convey is that leadership is within everyone, and everyone carries the equal responsibility of being a source of positivity, encouragement, and service to others.

# Board of Governors' Gold Medal

---

The Board of Governors' Gold Medal is awarded at this Convocation to the student who achieves the highest academic standing in his/her pharmacy degree programme.

---

## Tiong Shao Qin

**Bachelor of Pharmacy (Hons)**

Cohort: BP1/18

Tiong Shao Qin graduated from the Bachelor of Pharmacy (Hons) programme with First Class Honours. She is a dedicated, proactive, attentive, and determined student who constantly demonstrates the desire to improve and explore in-depth knowledge on a diverse range of topics. Her inquisitiveness and perseverance in every learning approach and the guidance received from supportive lecturers, family members and friends have contributed towards the achievements obtained throughout her pharmacy studies at IMU.

Shao Qin has always showed a willingness to offer help to her peers. Her commitment to every aspect of learning, projects, and events have resulted in her receiving various awards and winning in several competitions, such as MPS-Duopharma Biotech Gold Medalist Award 2021. Furthermore, her enthusiasm for research has motivated her to investigate the neuroprotective effect of TGF- $\beta$ R1 inhibitor (RepSox) against beta-amyloid-induced neurotoxicity for Alzheimer's Disease as her final year research project. She was a scientific committee member of the International Undergraduate Medical Research Conference 2021.

# Tun Zahir Merit Award

---

The Tun Zahir Merit Award is given to a graduating student who has shown outstanding academic excellence in his/her graduating cohort. This award is given in memory of the late Tun Dato' Seri Dr Mohamed Zahir who was the Chancellor of IMU from 1999 to 2005.

---

## **John Lim Kien Weng**

**Bachelor in Medical Sciences (Hons)**

Cohort: MEI2/19

John Lim Kien Weng graduated with a Bachelor in Medical Sciences (Hons) degree. He is as an intelligent, respectful, purposeful and initiative person. In his final year, John conducted a thesis on the "Role of the renin-angiotensin-aldosterone system (RAAS) in ischemic retinal damage in rats" and demonstrated that local components of RAAS play a crucial role in the fate of the ischemic retinal tissue. His observation also suggests an important role of the RAAS axis in retinal protection. John has demonstrated excellence in all that he puts his mind to, be it an academic accomplishment, designing and implementing an experiment, or collaborating with others as a University ambassador at the Malaysian Students' Surgical Society or as the External Liaison Director at Malaysian Medics International. He is reliable, ready to help a person with a good ability to communicate with people of different ages.

## **Shareena Syaira binti Shaari**

**Bachelor of Science (Hons) in Psychology**

Cohort: PS2/19

It has been a challenging journey for all university students to pursue their studies during the time of the pandemic. During this difficult time, Shareena presented the tenacity to complete her degree with flying colours and her persistence in facilitating personal learning and growth. She is often identified by the faculty as a multi-talented student. She has participated as an emcee for university events, as well as being a moderator and speaker for events organised by the Department of Psychology.

Additionally, during her three years journey at IMU, she successfully organised The Sign Language Workshop and was actively involved in the IMU Scholars Committee where she was its Secretary (2020-2021) and later, Vice-President (2021-2022).

Shareena graduates with First Class Honours from the Bachelor of Science (Hons) in Psychology programme. She has shown admirable qualities as a student. She always does her best to cater to the needs of studying and career planning to become a clinical psychologist in the near future.

# Tun Zahir Merit Award *cont.*

## **Lim Wei Jean**

**Bachelor of Science (Hons) in Pharmaceutical Chemistry**

Cohort: PC2/19

Lim Wei Jean graduated with First Class Honours from the Bachelor of Science (Hons) in Pharmaceutical Chemistry. Wei Jean has constantly portrayed high intellectual capabilities, critical and analytical thinking throughout his studies in IMU. While maintaining his academic excellence, Wei Jean has actively involved himself in the extracurricular activities by leading and supporting educational, festive, and sport events. Wei Jean has benefited a lot throughout his studies, as well as from his experiences in various extracurricular activities, moulding him into a well-suited candidate for the pharmaceutical industry.

## **Goh Jia Yee**

**Bachelor of Science (Hons) in Biomedical Science**

Cohort: BM1/19

Amanda Goh is an IMU scholar and a First Class Honours graduate from the Bachelor of Science (Hons) in Biomedical Science programme. She was also awarded the Institute of Biomedical Science (IBMS) President's Prize for her academic distinction. Her consistent, outstanding academic accolades are a testament of her drive, determination, and discipline. Behind her bubbly and endearing personality belies excellent communication skills which was put to good use with her active contribution to the IMU Society of Biomedical Science as secretary and in an IMU Chariofare 2020 project as public relations officer. Her unyielding passion to develop a career in biomedical science will lead her to great heights.

## **Chia Kiat Fatt**

**Bachelor of Science (Hons) in Biomedical Science**

Cohort: BM1/19

As an IMU scholar and a First Class Honours graduate from the Bachelor of Science (Hons) in Biomedical Science programme, Kiat Fatt is dependable and well-respected amongst his peers. His excellent track record in academic performance did not undermine his caring and generous nature, as he is always ready to support his peers and lecturers alike. A strong leader, he led the 'Sexual Health Awareness (SHA) Campaign' organised by the IMU Scholars' Committee in September 2021. He was also the public relations officer for the Scholars Committee, Chariofare, and Biomedical Science week. A gentle but resilient character, he thrives on overcoming challenges and believes in continuous and life-long learning.

# Tun Zahir Merit Award *cont.*

## **Seow Ke Sin**

**Bachelor of Science (Hons) in Medical Biotechnology**

Cohort: MB1/19

Seow Ke Sin, an IMU scholar, graduated with First Class Honours from the Bachelor of Science (Hons) in Medical Biotechnology programme. Ke Sin is a talented student and constantly strives for excellence in everything that she does. She was able to maintain her academic performance while being active with extra-curricular activities such as leading the organising committee of the IMU Research Hackathon 2020, and holding different positions in IMU's Medical Biotechnology Day, the IMU Scholar Society 2021/22 and the IMU World Health Fest 2020. In her final year research project, Ke Sin worked on "Functional genomics analysis of iso-orientin as potential anti-Alzheimer's drug". Ke Sin is passionate in research, particularly in developing an effective intervention for diseases.

## **Jayne Tan Xue Ling**

**Bachelor of Science (Hons) in Dietetics with Nutrition**

Cohort: DN1/18

Jayne Tan Xue Ling graduated with a First Class Honours from the Bachelor of Science (Hons) in Dietetics with Nutrition programme. Jayne is a diligent, well organised and independent learner. She possesses a strong sense of responsibility and accomplishes tasks in a timely manner. Jayne has strong problem-solving skills with a self-motivated and goal-oriented personality. She is polite and has good interpersonal skills. During her final year internship, she received good feedback from clients and stakeholders. Jayne has positive learning attitudes, able to work independently and able to co-operate in interdisciplinary team.

## **Lee Chiu Ying**

**Bachelor of Science (Hons) in Nutrition**

Cohort: NT1/19

Lee Chiu Ying graduated with a First Class Honours from the Bachelor of Science (Hons) in Nutrition programme. Chiu Ying is a sincere and hard-working student. She has a positive attitude and always tries to go beyond what is required to better herself. She is an IMU scholar and actively participates in extra-curricular activities to hone her soft skills and competencies. She has been working on different projects with the IMU Scholars Committee, such as the HealthAI Research Hackathon: Code for Health as secretary and Sexual Health Awareness Campaign "Passion, Pleasure & Protect" as social media manager.

She is passionate about her research. Her final year research project was on Knowledge and Attitude on Salt Iodisation Programme among Malaysian adults in Klang Valley. She presented her research at the 37<sup>th</sup> Nutrition Society of Malaysia Conference 2022 and bagged a prize in the undergraduate Poster Competition category.

# Tun Zahir Merit Award *cont.*

## **Alicia Tan Yu Tian**

**Bachelor of Science (Hons) in Chiropractic**

Cohort: CH2/18

Alicia Tan Yu Tian is graduating with a Bachelor of Science (Hons) in Chiropractic degree with First Class Honours. She has known to be hardworking and persistent student during her time at IMU. She is seen as a motivated and passionate student amongst her peers. Alicia is also known to be consistent and determined to overcome any challenges in her clinical internship. Most importantly, she has demonstrated professionalism in class especially during her term as class representative. Her commitment to community service is demonstrated during her participation in MPU4 at the Yayasan Sunbeams Home and Tzu Chi Foundation outreach during her final year. Academically, she has excelled and is committed to the IMU core values.

## **Lau Kai Sze**

**Bachelor of Science (Hons) in Chinese Medicine**

Cohort: CM1/18

Lau Kai Sze is graduating from the Bachelor of Science (Hons) in Chinese Medicine programme with a First Class Honours. Kai Sze constantly portrays high intellectual capabilities as well as great interpersonal and leadership skills. She is also a very hardworking and mature student. During her time in IMU, she has participated as committee member for the MEDTCHP218 orientation, Assistant Head of Project for the Chinese Medicine workshop which was organised in collaboration with the IMU Intravarsity Club and was the class representative of CM1/18. She was also involved as a speaker in the school forum and a facilitator of Communicating Your Community Engagement workshop. Kai Sze was also active in sports; her team was the champion in squash and 2<sup>nd</sup> runner-up in volleyball in the IMU Cup 2019.

# IMU Alumni

Congratulations for making it this far in your education and welcome to the IMU Alumni Community! Your relationship with International Medical University (IMU) does not end just because you have graduated. As an IMU graduate, you've automatically become a valued member of the IMU Alumni Community.

Being a part of the IMU Alumni Community, you will be given access to the Alumni Portal, where you can connect with your classmates, get in touch with lecturers and mentors, participate in business and social networks and attend (or organise) a range of events including reunions, physical or online. You can also enjoy special privileges and benefits such as special alumni discounts on continuing professional development programmes at the IMU Centre for Lifelong Learning (ICL), as well as receive updates and first-hand information on IMU News and events through Alumni Portal. The IMU experience is not just about your years on campus but beyond. Many alumni find that they carry the IMU learning skills well into their professional and personal lives. Hence, they tend to contribute back by sharing those experiences with the current IMU Students.

## How can I contribute as an Alumni?

KEEP IN TOUCH – We appreciate your ongoing interest in IMU Connect with our various social media channels, Alumni Portal, as well as the IMU Alumni Website, to help you STAY IN TOUCH with what's going on. Keep us up to date with your profile information, working experiences and Award Achievements via Alumni Portal. If you have yet to receive your activation email from the ARO unit, please scan this QR Code and we will be in touch with you.

## Alumni Sharing

Share with students your experience on campus life at Partner Schools, working experience, guidance on speciality and research work, these are just some of the topics that you can explore for sharing sessions. You can even consider providing internships or employment opportunities in the future or be our Mentor by joining our Alumni Buddy programme where both students and alumni will benefit from this exercise. Contact us at [alumni@imu.edu.my](mailto:alumni@imu.edu.my) to know more.

## Feature Alumni

We want employers, institutions, and individuals to know where you studied and where you are now. Whether you are doing volunteerism, involved in humanitarian work or if you are an entrepreneur, we want to know all so we can better support your journey. Send to us a short story of your adventures anytime and anywhere.

After all, WE ARE PROUD OF YOU!  
Scan here to share your stories.

Stay tuned with us via social media:

-  IMU Alumni
-  IMU Alumni Group
-  @ imualumni
-  IMU Alumni

## **IMU Alumni Relations Office**

Alumni Relations Office (ARO) was established in 2016 with the aim of developing an international network of IMU graduates and to engage our alumni through the exchange of knowledge, academic ideas, and professional development. The Alumni Relations office is the point of contact for all graduates of IMU.

We will ensure that your time is used wisely and that your experience is rewarding. We offer a range of special alumni events, services, and publications to allow graduates to stay connected to the University and benefit from networking with one another.

## **Alumni Association and Alumni Chapters**

Alumni Association of International Medical University (AAIMU) was established in 2002. The new committee members were elected in early 2021 and will serve for two years. The AAIMU has set up Chapters to work with the IMU's Schools and Centre to coordinate events and activities. These collaborative efforts allow the alumni to socialise and boost their personal growth.

## Alumni Association Committee 2021 -2022

Position	Name	Cohort	Where they are currently working
President	Aw Tsung Wai	ME210	Teladoc Health
Vice President	Sandev Singh	ME102	Thomson Hospital Kota Damansara
Secretary	Rina Sharina Roslan	NS217	Embassy of the United States of America
